

Home Energy Assessments

Keeping people connected to
energy, water and communications

ConnectEd.org.au

Learn how to take control of
your usage and reduce the size
of your electricity and gas bills.

**We can help you save money and gain control
of your home energy consumption.**

Uniting Communities offers Home Energy Assessments by skilled Energy Efficiency Advisors who will visit your home and:

Show you how to read and understand energy bills.

Show you how to read your meter and monitor use.

Identify where energy is used in your home and calculate running costs.

Recommend free or low-cost ways you can reduce your energy use and lower your bills.

Call your retailer and negotiate for you, if required.

You are eligible for this **FREE** service if you attended a ConnectEd community education session or have seen a financial counsellor.
